

MultiScent²⁰ Screen

NOAR

A powerful and fully integrated device for experiencing fragrances in a unique, innovative and intuitive way.

Integrated solution for the exclusive Noar's technology with a 7 inch built-in touch screen.

Perfect for use at the Point of Sale.

Offers up to 20 fragrances for experimentation, with 100 trials each.

Noar's exclusive Dry Smell Technology

No residues or droplets are released in the air or on the consumer.

Try several products without mixing fragrances or confusing the senses.

NAME: MultiScent
MODEL: MultiScent 20 Screen
CODE: TBD

Issued: September 13, 2022

DESCRIPTION:

MULTISCENT is an electronic device designed for olfactory experimentation that provides digital scent through dry air technology.

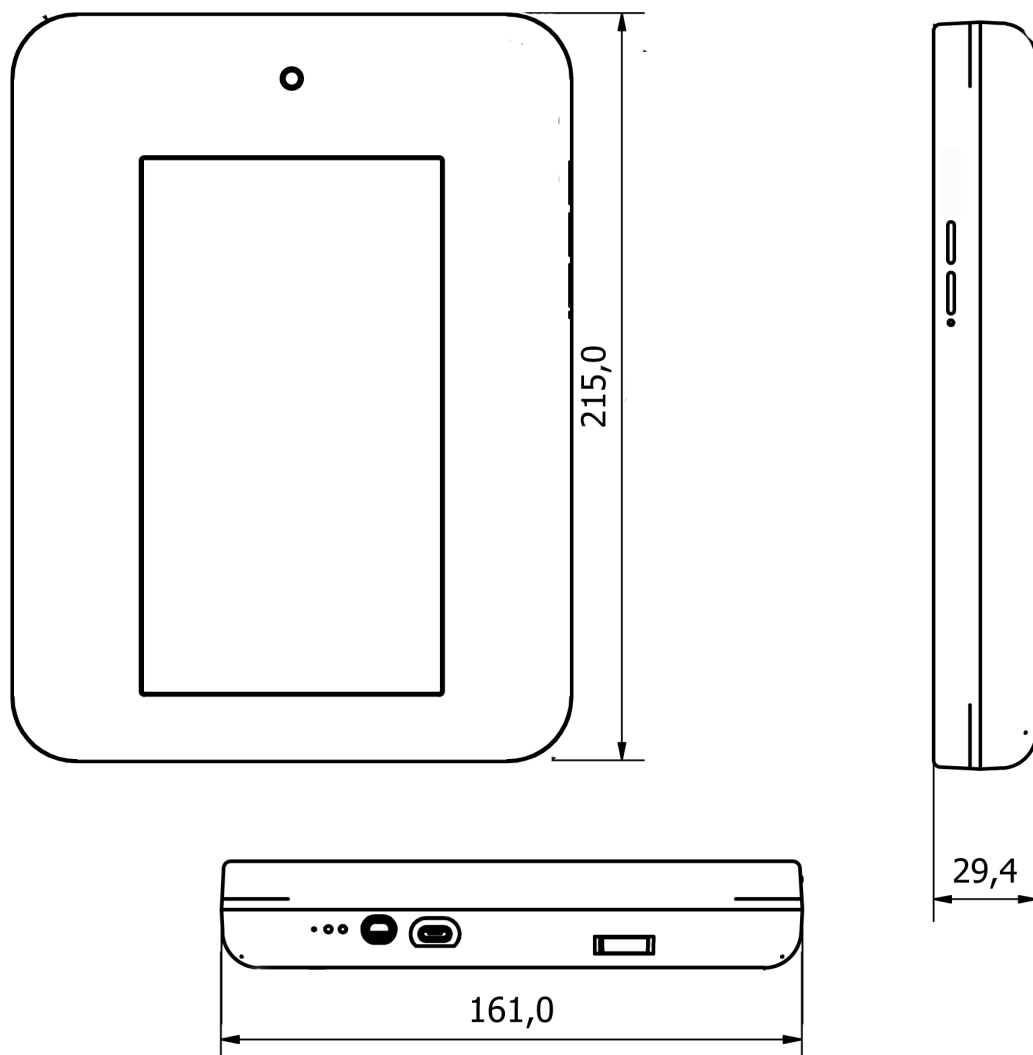

The device operates with a cartridge system, which can be replaced when empty.

The MULTISCENT 20 model allows the experimentation of 20 different fragrances.

The Multiscent 20 Screen has its own touchscreen and the same capabilities as a consumer tablet. It is operated using an application installed in its own memory.
